MISS TUCKER IMPROVING HOURLY, SAYS HER NURSE

Doctor Thinks Teacher Who Was Lost in Woods
Will Be Well in Few Days.

EAST ROCHESTER, N. H., Aug. 8.—Miss Mary A. Tucker, who was sought for hundreds over a wide stretch of territory for thirteen days and found at last in a precarious condition, through the searchings of the American Red Cross, is improving hourly. The doctor attending her, Dr. J. H. French, says she is well and that she is improving hourly. He expects she will be all right in a few days, he said. Dr. French, Miss Tucker's mother-in-law, is expected here soon.

**Witte Already in City by Train;
Up Early to Greet His
Associates.**

PORTSMOUTH, N. H., Aug. 8.—The peace plenipotentiaries who it is hoped will be able to end the Russo-Japanese war are here, and the ceremonies of welcome under the auspices of the State are under way.

M. Witte, the Russian envoy, reached here from Boston last night and was about the hotel early today in search of information as to the situation which he had left behind off New York. The Mayflower, upon which the Russians made the trip, and the Dolphin, which was given over to the Japanese peace commissioners, reached the harbor shortly before 10 o'clock.

ENVOYS MEET AGAIN.

When the Mayflower had reached port, M. Witte and his party who had come part of the way by train, went aboard the vessel. The representatives of both nations were greeted by Admiral Mead and welcomed ashore where they started for the big store for the breakfast that had been prepared for them yesterday in Boston and reached here in spite of the admiral's attempt to find it off. A new breakfast was gotten up for today.

**JAPAN'S TERMS
AS OUTLINED
BY AUTHORITY**

THE WENTWORTH, Newmarket, N. H., Aug. 8.—This, on Japanese authority, will be Japan's plan at the conference that is to be held at the Wentworth Hotel, Newmarket, N. H., on August 10th. Japan will demand a war indemnity of \$1,000,000,000.

**Myers' Company Building at Albany, N. Y., Scene of Terrible Disaster in Which
Fifteen Are Said to Have Been Killed and Thirty to Sixty Injured.**

ALBANY, N. Y., Aug. 8.—Thirty to sixty people are reported injured by the collapse of the big department store building at Nos. 39 and 41 North Pearl street, occupied by the John G. Myers Company. The number of dead is not known. Edward M. Hackett, a member of the firm, says none was killed. Other reports from Albany newspapers place the dead at fifteen, and state that several bodies have been recovered.

Without warning the crash came at 9 o'clock, soon after business had commenced for the day. All the employees were at work, and there were several hundred customers in the store. The Myers company runs probably the largest department store in the city.

DOCK TRUST DRABERY CHARGES GO BEFORE DISTRICT ATTORNEY

**PRESIDENT COLLINS OF THE CENTRAL LABOR
UNION SEEKS GRAND JURY ACTION.**

Bribery charges against at least seven men will be laid before District Attorney Sullivan today in connection with the passage over the Mayor's veto yesterday of the National Dock Trust track passageway bill. The bill, which was introduced by a member of the Board of Aldermen, was passed by a vote of 15 to 10. The bill, which was introduced by a member of the Board of Aldermen, was passed by a vote of 15 to 10. The bill, which was introduced by a member of the Board of Aldermen, was passed by a vote of 15 to 10.

HAS NAMES OF SIX MEN.

"I have the names of six men who represented various amounts from representatives of the National Dock Trust Company to secure the passage of the bill," said President Collins of the Central Labor Union. "I have the names of six men who represented various amounts from representatives of the National Dock Trust Company to secure the passage of the bill."

In the heart of the business district the collapse caused a panic. The street became filled with shrieking men, women and children who had escaped more or less hurt.

The ruins caught fire. An alarm turned in was followed by a general one that summoned every available fireman in the city.

All the police reserves were called out. They formed a cordon around the wreck and with the help of the firemen commenced the work of rescuing those dangerously injured.

Many Injured Still in Ruins.

Amidst the ruins of the building, many people were seen. Some were lying on the ground, and others were being carried away on stretchers.

Many persons are believed to be in the ruins, held down by huge iron braces and heavy timbers, which will have to be removed before they can be rescued.

So suddenly had come the collapse that those on the upper floors had no time to escape.

Men and women were thrown through the windows of upper stories and struck the sidewalk, terribly injured.

The Myers company was run by the estate of John G. Myers, the founder of the house. Myers died a year ago. It occupied a six-story stone and iron building with a frontage of about seventy-five feet. It was reported that they did the largest retail dry goods business in the city. They bought from many big wholesale houses in Boston and their credit was of the highest order.

Fearful Panic of Girl Employees.

At the time of the collapse there were 375 employees in the building. Of these 200 were young women. It was in the fearful rush for safety that many were caught by falling timbers. It is not known how many customers were scattered about the various floors. Employees say the number could not have been large, owing to the early hour.

JAPS TO DEMAND A CLEAR BILLION

ON REFUSAL OYAMA WILL STRIKE

Japan, according to the very reliable information upon which this dispatch is based, is prepared for the possibility of a move that will prove an almost-certain checkmate.

When Russia is making her proudest demands, when the Czar is most independent of his faith in the power of Lloyd George, when Russia in Manchuria will strike.

Not 200,000, as press reports have had it, but 500,000 men, are to-day in the hands of Oyama. No information of the army is ready for a decisive battle. It is prepared to engage the great Russian line and double it back at a stroke at that word, the signal of command. That word, it is believed, will be given at the instant when

DEMAND AR BILLION

could not acquire territory in Manchuria, and that the men of Japan wish to-day they had not made that promise, and they will keep it, for the party that want a conquest of the mainland of Asia is in a minority, and the Mikado's advisers are "wise."

"No Japanese doubts, to-day, the continued success of the Japanese armies, the war continues. The Russian prisoners of whom I have seen many, tell me cases that they were forced to fight, that they have no interest in the war—often that they have never known what it was about. Such men cannot fight the Japanese, who have an old saying, that it is better more than ever repeated these days: 'Life is a game, and death is a joke.'"

"The party in St. Petersburg is in the minority today, as is the original from

churia under Japanese ad

"To take Harbin and Vladivostok, drive the Russians absolutely out of Manchuria and keep them out—that is the war that we want. We believe only in the taking of Port Arthur could be a great age. Once the armies of the two are driven into Siberia, what can they do? What is there for the Czar to do but the peace, or continue a war that is simply a permanent Japanese possession of what has been the battle ground?"

HUMILIATION NOT INTERDE

"A man like Witte may appreciate

of
and
one.

The pause did not suited to Brazil's position. The Hungarians at this conference, but the terms will be clear-cut and emphatic: a billion dollars indemnity, the cessation of Sakhalin and Vladivostok and the permanent evacuation of Manchuria will be demanded. The Russians may be willing, it is thought, to accept the first two terms, but they are unsatisfactory; they may be willing to give up their demand for Vladivostok, but Sakhalin we have taken and we will hold it.

"There is a war party—and friends have published interviews in American papers recently—which believes the Japanese should forget their promises," he said, and scold Manchuria. This is not the policy of the majority.

GREAT STORE BUILDING COLLAPSES

ESTIMATE BY POLICE 15 DEAD

SCORES INJURED IN AWFUL PANIC

Hospitals Filled With Victims of Disaster, Many of Whom Are Terribly Mangled.
Thirty Clerks Said to Be Missing.

Special to the Boston American.

ALBANY, N. Y., Aug. 8.—By the collapse of the big department store building of the John G. Myers Company, Nos. 39 and 41 North Pearl street, a few minutes before 9 o'clock to-day, thirty persons were seriously injured and a number of clerks are believed to have been killed.

Estimates of the number of dead are fifteen to fifty.

Officials of the fire and police departments say they believe at least fifteen bodies will be found under the mass of broken timbers and stone.

Edward M. Hackett, manager of the firm, says that thirty clerks have not been accounted for.

Warships at Portsmouth Harbor To-day. PEACE ENVOYS ARRIVE

PORTSMOUTH, N. H., Aug. 8.—Greeted by the thunder of guns of welcome, the peace envoys, bearing the Japanese envoy and his retinue, steamed into this harbor and dropped anchor shortly before 10 o'clock.

After Mr. Witte, the Russian plenipotentiary, had gone aboard the Mayflower, which he left at Newport, the distinguished guests were welcomed by Admiral Mead, after which they all broke

fasted as his guests at the big stores at the navy yard.
From there the envoys will go to the Southampton County court house, where a reception will be tendered them by Governor John McLean in behalf of the State of New Hampshire.

By 5 o'clock, from the veranda of the Mayflower, the three United States war vessels were seen shortly directed

steaming towards the inner harbor. They came in squadron formation, with the

Mayflower, bearing Baron Rosen and the other members of the Russian suite. In the distance, following with the Japanese

envoy and his retinue, steamed into this harbor and dropped anchor shortly before 10 o'clock.

HUNDREDS OF ANARCHISTS LOOK HERE

North End Full of "Reds" Gathering for Some Secret Purpose.

POLICE SEEK LEADERS

Hundreds of anarchists are flocking to Boston and the North End is fairly alive with the "reds." What their mission is the police and law-abiding citizens are able to fashion. The "reds" are being issued from police headquarters to arrest any anarchist found circulating the law-defying circular which is afloat in this city.

The circular, which denounces law, religion and property holding, has reached many Italian households throughout the city. It is thought that the United States mails are being used by the anarchists to have their reading matter reach its destination.

Whether or not an anarchist convention is to be held in Boston the police are endeavoring to learn. Italian is the dominant language in the North End, and there are over 5000 visiting anarchists in the city. The police are convinced that this number will be swelled by many more.

It is thought by many Italians that an attempt is to be made on the life of President Roosevelt in Boston. Commissioner Sullivan is working in connection with the Italian police and has also received orders to keep a watch on any anarchist who may try to do the deed of the assassin.

It is thought that several law-abiding citizens really have never seen a day's work in their lives. North End anarchists are being issued from police headquarters to arrest any anarchist found circulating the law-defying circular which is afloat in this city.

The circular, it is said, is published by a North End printer. The police are endeavoring to learn. Italian is the dominant language in the North End, and there are over 5000 visiting anarchists in the city.

FIERY CIRCULAR DISTRIBUTED BY LYNN ANARCHISTS

The following is a translation of a circular, written in Italian, and which has been freely distributed among the working men of the North End.

To the laborer: Only for once will we answer the local papers and the press, which we will answer with the truth. We, the anarchists, with the abolition of the old order, make the foundation of men over the world. We wish that the world, with all its miseries, be destroyed. It is usually this way. The past generations should be in control of all people, the common people, the human beings, so that the laboring class should have equal rights with the rich.

We are against patriotism, property, religion, and religion. We wish to see the abolition of the old order, with all its miseries, be destroyed. The artificial frontiers and to inaugurate the great equality of the world.

We are against property. We are against individual property, because it is the cause of ignorance, poverty, and all other evils. We are against property, because it is the cause of ignorance, poverty, and all other evils. We are against property, because it is the cause of ignorance, poverty, and all other evils.
